### FEEDBACK CAMPAIGN

- "Really cool drum beat in the intro."
- "Love love this drums to start"
- "love the mix of prog and metal!"
- "Love the hollow drum sound to introduce that John Bonham odd beat. Love the guitar crunch sound. 1:19 is a cool little coyote howl that I can dig. The music reminds me of like Neil Young's Rust never Sleeps combined with like an Alice In Chains. Makes me wanna go smoke another pack of cigs haha. The album cover is sick btw. Good work here mate! "
- "Great drumming intro! like the guitar work too!"
- "Very cool band name, first of all. Awesome song, really appreciating the indie DIY production:)"
- "larga la intruducción, tiene buena onda y suena bien"
- "I dig nice vibe good tune "
- "Vocals might just need a little balancing.. otherwise i personally added it. It was good"
- "Nice Cover, it's very psychedelic, i think there is over drumming all over the song."
- "great sound, the name of the band is dope, love this sound"
- "love the echoing vocals and melody! - Feed the Monkeys"
- "This is trash bro u killed it so nice "
